**420-PW4-AB**

HTML & XML

**Final Project**

**Due: May 15th, 2018**

**Late assignments will not be accepted**

**Requirements:**

- Complete all the instructions listed below.
- Test your webpages.
- Validate your webpages using the W3C validator.
- Submit your webpage files, along with any assets, in a zip file in the assignment dropbox on Lea.

Your final project will expect more of you without exact guidance. You are expected to use all of the proper elements for all the requirements without specifically being told what to use.

1. You have to create a website for the restaurant "Pete's Pizza Palace"
2. Your website should not exceed 4 pages
3. Your website should have the following areas
  - a. Contact Us
  - b. About Us
  - c. Order Online
    - i. Submit your forms to the same URL as in assignment 3
4. Include a media (audio or video) element to your website
5. Any styles used should be in an external CSS file, do not use inline or internal CSS

**Note:**

There is only a maximum set for pages, there is no minimum

Your site can contain more areas than those defined in step 3

You are graded on the functionality of your site, not the look. You are free to use any CSS
